

**ANTH-A385 / INFO-I 202 / SOC-S 240 * SOCIAL INFORMATICS / CYBORG ANTHROPOLOGY *
INDIANA UNIVERSITY SOUTH BEND * SPRING 2021**

Professor - Dr. Josh Wells

- Reasons to Visit - Any! Help, grades, ideas, questions, etc.
- Email - jowells@iusb.edu or via Canvas messages (any time)
- Phone - email for number and appointment
- Virtual Office - <https://iu.zoom.us/my/profjwzoom> (by appointment)

Class Meetings

- Tuesday: synchronous meetings from 11:30am to 12:45pm via Zoom
 - <https://iu.zoom.us/j/89254608503?pwd=bzRrMWxmUTlkahjMlczRUZSGJtUT09>
 - Phone: +13126266799 US (Chicago) && Meeting ID: 892 5460 8503
 - Password: people
- Thursday: asynchronous activities

Description: *This course considers the omnipresent role technology plays in our human existence and how technological behaviors may be studied. We will learn how humans' very ancient need for tools still affects social structures, definitions of humanity, and processes of invention associated with information and communication technologies.*

Course Objectives:

- Competently engage with professional scientific literature that broadly covers the ideas contained in social informatics, including anthropology, sociology, cognitive science, and medical studies
- Communicate ability to understand sociocultural and ethical foundations of how human beings function with hardware and software as producers and consumers.
- Demonstrate ability to critically examine the effects of cultures, societies, sciences, politics, and economics on the modern ways that people are born, invent, reproduce, consume, and die immersed in technologies and human-built environments.

Required Accounts (4): You are required to create four free data service accounts. You may share existing accounts or create new ones.

- Google Docs: <https://kb.iu.edu/d/agvh> (use IU Google or your own; instructor = jowells@iu.edu)
- IUSB Interlibrary Loan (ILLiad): <https://iusb.illiad.oclc.org/illiad/logon.html> (click "first time")
- Twitter: <https://twitter.com/account/new> (either a new or existing account is fine)
- Zotero: <https://www.zotero.org/user/register> and join the class Zotero group

Course Grading Categories:

Fifteen Weekly Written Responses to course readings (2% each)	30% (15 * 2%)
Fourteen Thursday Participations (2% each)	28% (14 * 2%)
Project #1 - Google / Zotero Assessment Paper	10%
Project #2 - Twitter Social Media Assessment Paper	10%
Project #3 - Linux & Open Philosophy Paper	10%
Project #4 - Literature Review Research Paper (10%) and Presentation (2%)	10% + 2%

Table 1: I202 / S240 Semester Topic Schedule and Due Dates

Week # (T, R Dates)	Topic	Important Dates
W01 19-21 J	Introduction to Social Informatics	Tue: Zoom Thu: Zoom
W02 26-28 J	Human evolution & technology	Tue: Zoom Thu: Google/Zotero Training
W03 02-04 F	Info Literacy & Augmentation	Tue: Zoom Thu: Analyzing Twitter Lists
W04 09-11 F	#OpenGov & #OpenData	Tue: Zoom Thu: Google/Zotero Paper #1 rough draft sharing Fri: Google/Zotero Paper #1 due before 10pm
W05 16-18 F	Unconferences, Hackathons, & Info Sharing	Tue: IUSB WELLNESS DAY - NO CLASS - NO RESPONSE Tue: Zoom Thu: Humanitarian OpenStreetMap
W06 23-25 F	Futurism	Tue: Zoom Thu: SciFi Online Unconference on Doctorow
W7 02-04 M	Militarism	Tue: Zoom Thu: Authoritarian Online Playbooks
W8 09-11 M	Digital divides	Tue: Zoom Thu: Twitter Paper #2 rough draft sharing Fri: Twitter Paper #2 due before 10pm
W9 16-18 M	Linux & Ubiquitous Computing	Tue: Zoom Thu: Natural History of Linux
W10 23-25 M	Internet Freedom & Privacy	Tue: Zoom Thu: ISPs and IOTs
W11 30M-01A	E-Waste and Reuse	Tue: Zoom Thu: Human Solutions to E-Waste
W12 06-08 A	Work	Tue: Zoom Thu: Linux Paper #3 rough draft sharing Fri: Linux Paper #3 due before 10pm
W13 13-15 A	Learning & Play	Tue: Zoom Thu: Final Paper Brainstorming
W14 20-22 A	Economics	Tue: Zoom Thu: IUSB WELLNESS DAY NO ACTIVITIES Thu: Final Paper Article Support in Groups
W15 27-29 A	Citizenship of Technology	Tue: Zoom Thu: Zoom and Final Paper Rough Draft Sharing in Groups Fri: Final Paper #4 due before 10pm
FINALS 04 MAY	Final Presentations 11:30AM - 1:30PM	Find all your final exam dates and times - https://kb.iu.edu/d/aobf

Weekly Reading Response Requirements

Due weekly before 8:00 AM Tuesdays

Fifteen weekly written responses to our course readings must be submitted during the semester. These will be submitted through Canvas Discussion forums before class each Tuesday (with the exception of Week 1). Late submissions will not be counted. These are worth 30% of your course grade in total and failure to keep on top of the readings will certainly lead to a poor grade.

Each written response must be AT LEAST 250 WORDS LONG (less than a single page double-spaced). No partial credit will be given for submissions below the minimum length.

Discussion Forum Content Requirements

1. Put at top of your post: "WORDS=xxx" (replace "xxx" with word count from lower right corner of discussion text entry box)
2. Use terms and concepts from weekly readings to answer the weekly topic question(s)
3. Provide a question you create about sociocultural or ethical behavior with technology, related to the readings, that you would like the class to discuss.
4. Try to meaningfully answer the questions or continue the discussion thread of at least two other students (this can be as long or as short as you like).

Thursday Participations

Due weekly between 8:00 AM Thursday and 12 noon Friday

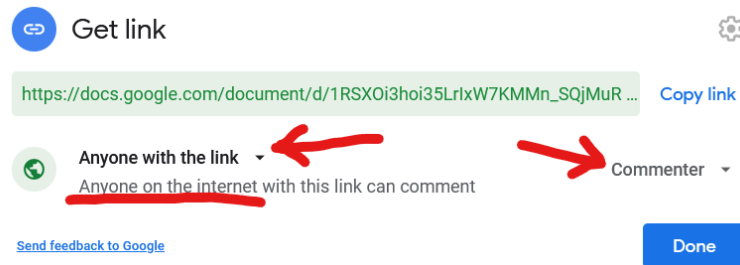

Each "Thursday", we will have an asynchronous activity for you to participate. You can start on the activity as early as right after class on Tuesday or finish it as late as noon on Friday. Ideally, everybody will have them done around 10am on Thursdays. As with all things during the pandemic, let me know if you have problems.

Most activities will involve a Canvas Discussion which will contain specific topical instructions for self-guided research, and where you can share your experiences with classmates.

Some activities involve round-robin rough draft sharing in advance of paper due dates. In order to participate, you must share a Google Document with a rough draft (might be barely rough, might be really rough) for your classmates to comment upon.

For rough draft sharing, your sharing permissions ***must*** look like the image below.

- Do ***not*** only share with people at IU, make certain it is "Anyone on the internet".
- Do ***not*** share without giving readers comment permissions, you want comments.
- Copy the link and try to open your document in an incognito mode browser. If you can't see it, fix the permissions.

Project #1 - Google Docs & Zotero, Community Writing Resources

Objective: become a functional user of Google Docs and Zotero, then write an assessment of how these networked writing resources behave.

Preparation Activities

- Create a Google account (see pg. 1) and use Google Docs/Drive - <http://drive.google.com>
- Learn how to use Google Docs - <https://support.google.com/drive>
- Search around through the Google Drive/Docs site to learn what people do with it
- Create a Zotero account - <http://www.zotero.org>
- Learn how to use Zotero - http://www.zotero.org/support/screencast_tutorials
- Build bibliographic entries for your required sources for this project (and other stuff?)
- Search around through the Zotero site to learn more about what people do with it
- Find two research articles in [Web of Science](#), one each on Google Docs and Zotero

Paper Content Requirements (check them off as you achieve them)

- Explain how networked collaboration is facilitated through these tools
- Predict how you can use these tools in your future career at IUSB and beyond
- Describe potential workflow and ethical considerations, both positive and negative
- Use these FOUR course resources as cited references to support your statements and to help organize your thoughts: Coleman (W1-now), Hanson (W1), Kling (W1), Van Schaik (W2)
- Use your two Web of Science articles as cited references to explain broader impacts

Paper Structural Requirements (check them off as you achieve them)

- 900-1200 words of body text, not counting headers and bibliographies - include word count on top of first page next to your name
- Composed in a Google Doc with a tolerable font and size
 - Doc should be made publicly available for comments but not editing
 - Link will be shared through the appropriate assignment in Canvas
- Submitted through Canvas>Assignments in DOCX or RTF format Filename = lastnameProject1
- Use (Lastname Page#) in-text citations when citing ideas from readings or other sources
- Complete Chicago-style bibliography, created through Zotero and pasted into your document

Project #2 - Use Twitter to Create a Useful Social Information Stream

Objective: become a functional user of Twitter to gather and share quality professional information, then write an assessment of how this information sharing network behaves.

Preparation Activities

- Create a Twitter account
- Learn to use Twitter
 - [Twitter Tutorial for Journalists \(UC Berkeley Advanced Media Institute\)](#)
 - [How to Use Twitter: Critical Tips for New User \(Wired Magazine\)](#)
 - *Pay attention to how Twitter is used to create curated information streams for users*
 - *You are not required to use a Twitter client like TweetDeck*
- Create 1-3 Twitter lists for professional interest(s) with a combined total of at least 50 followed Twitter accounts. If you need help, consider these two example lists by Dr. Wells (you can view these because they are set as public):
 - Open Source Geographic Information Systems <https://twitter.com/i/lists/58526520/>
 - Social Informatics <https://twitter.com/i/lists/58526859>

Paper Content Requirements (check them off as you achieve them)

- Explain how community-driven information sharing can be driven by common interests and other social and cultural characteristics
- Based on your list building experience, predict how you can use these tools in your future career at IUSB and beyond
- Describe potential information quality and ethical considerations, both positive and negative
- Use these FIVE course resources as cited references to support your statements and to help organize your thoughts:
 - Coleman (W1-now), Hanson (W1), Kling (W1), Bawden (W3), Kolbitsch (W3)
- Find two research articles in Web of Science on understanding the social and/or cultural impacts of Twitter somewhere
- Use your two Web of Science articles as cited references to explain broader impacts

Paper Structural Requirements (check them off as you achieve them)

- 900-1200 words of body text, not counting headers and bibliographies - include word count on top of first page next to your name
- Composed in a Google Doc
 - Doc should be made publicly available for comments but not editing
 - Link will be shared through the appropriate assignment in Canvas
- Submitted through Canvas>Assignments in *.DOCX OR *.RTF format
 - Filename = lastnameProjectX where X is the project number
- Use (Lastname Page#) in-text citations when citing ideas from readings or other sources
- Complete Chicago-style bibliography, created through Zotero and pasted into your document
- Bibliography must include ALL your Twitter lists and their URL links ... like so ...

@EvolvedTech/Open Source GIS Info on Twitter. Web. <https://twitter.com/i/lists/58526520/>. Accessed 01 January 2021.

Project #3 - Linux and Open Philosophy

Simplified How-To List

0. If you don't know what Linux is, read this - <http://www.pcworld.com/article/3126764/linux/why-you-should-try-linux-today-6-compelling-reasons.html>
1. Watch the movie *Revolution OS* - <https://archive.org/details/RevolutionOS>
2. Read the history of the day that the "open source" concept was invented - this moment is described in the film but Christine Peterson was not available for an interview at the time. Consider Peterson as an option for your "favorite character" when you write the paper - <https://web.archive.org/web/20180201112553/https://opensource.com/article/18/2/coining-term-open-source-software>
3. Read the entire Coleman book, *Coding Freedom*, in Canvas>Files or access from the author's Web site - <http://gabriellacoleman.org/Coleman-Coding-Freedom.pdf>
4. Browse for 20 minutes each of these websites (80 min total) of organizations that grew directly from or were influenced substantially by the birth of Linux
 - a. Free Software Foundation - <http://www.fsf.org>
 - b. Linux Foundation - <https://www.linuxfoundation.org>
 - c. Open Source Initiative - <https://opensource.org>
 - d. Mozilla Foundation (inherited the open legacy of Netscape) - <https://www.mozilla.org>
5. Find two research articles in Web of Science on understanding the social and/or cultural impacts of Linux usage somewhere
6. Write paper

Paper Content Requirements (check them off as you achieve them)

- What are the "open source" and "free software movements? How are they alike? How are they different? How do their philosophies work together?
- Describe the important social developments of the Linux community in creating the "open" and "free" philosophies? Who is your favorite character in the Linux documentary or other resource?
- How do communities and working groups of developers and users grow around the "open" and "free" philosophies? How does their licensing facilitate this? How do these groups behave?
- What "open" and/or "free" technologies do you now see that you have used in your life? What is their use to you, and how have you benefited from the philosophies of their developers?
- Find and use two Web of Science articles as cited references to explain broader impacts
- You should reference *at least four chapters from the Coleman book* and include it in your bibliography: e.g. (Coleman Introduction and Epilogue) or (Coleman Chapter 1) or (Coleman Chapters 4 and 5).
- You should reference all of these things at least once in your paper and include all of them in your bibliography: Hanson (W1), Kling (W1), *Revolution OS* movie, Free Software Foundation website, Linux Foundation website, Open Source Initiative Website, Mozilla Foundation website.

Paper Structural Requirements (check them off as you achieve them)

- 900-1200 words of body text, not counting headers and bibliographies - include word count on top of first page next to your name
- Composed in a Google Doc
 - Doc should be made publicly available for comments but not editing
 - Link will be shared through the appropriate assignment in Canvas
- Submitted through Canvas>Assignments in *.DOCX OR *.RTF format
 - Filename = lastnameProjectX where X is the project number
- Use (Lastname Page#) in-text citations when citing ideas from readings or other sources
- Complete Chicago-style bibliography, created through Zotero and pasted into your document
- Bibliography must include entries and URL links for all websites you discuss

Project #4 - Literature review of social science of information and communication technology

Objective: Individual and group work on a particular aspect of information and communication technology. You will write an individual paper assessing library research you have conducted, and help present a group presentation of your findings as part of a team of your classmates.

Preparation Activities

- Search for interesting items in “Web of Science” on a particular theme of social informatics interest. ILL those items that you cannot access directly.
- Share interesting results with others in your group
- Make Zotero entries for the items you wish to use

Paper Content Requirements (check them off as you achieve them)

- This report is written as an annotated bibliography using at least FIVE professional research articles obtained through Web of Science
- Start with an introduction to the general theme of your studies
 - Explain your strategies of keyword/phrase searching, Boolean commands, and other refinements used in Web of Science
 - Explain how the features of Web of Science helped you to find items that were unexpected (made you realize a larger scope of the project)
- Write a half-page (100-150 words more or less) annotated bibliography synopsis of each article, describing the particular subject, methodology, and conclusion.
 - Start each article’s section with a full bibliographic entry for that article (this time they count in your word count)
 - Describe how one or more of the four required course readings (see below) can be related to the article to better understand the subject
 - Example annotated bibliographies here [LINK](#)
- Finish the paper with an evaluation of ethical and social practices surrounding ICTs in this series of studies, including a statement on how you think future efforts should be focused on that topic.
 - Use all four of the required readings (see below) to help explain the social informatics characteristics of your evaluation.
- Use at least these FOUR course resources as cited references to support your statements and to help organize your thoughts: Coleman (anywhere), Hanson (W1), Kling (W1), Keating (W2)

Paper Structural Requirements (check them off as you achieve them)

- Written as an annotated bibliography with an introduction at the beginning and an evaluation at the end (example annotated bibliographies here [LINK](#))
- 900-1200 words of body text, not counting headers and bibliographies - include word count on top of first page next to your name
- Composed in a Google Doc
 - Doc should be made publicly available for comments but not editing
 - Link will be shared through the appropriate assignment in Canvas
- Submitted through Canvas>Assignments in *.DOCX OR *.RTF format
 - Filename = lastnameProjectX where X is the project number
- Use (Lastname Page#) in-text citations when citing ideas from readings or other sources
- Complete MLA bibliography, created through Zotero and pasted into your document
 - Bibliography must include entries and URL links for all websites you discuss
 - Include all Web of Science articles (again) and all required course readings

Presentation Requirements

Each team member will contribute to a slide presentation in Google Slides (other multimedia can augment this) that presents a synthesis of the group’s findings. Each group will discuss how the experiences of the individual members may be compared and contrasted per the project criteria. Each group will have a specific time limit, based on class size. The presentation is worth 2% of your grade. Failure to contribute and participate in an informative presentation with your group will result in a 25% penalty to your project grade. However the group with the best presentation will earn 1% extra credit to their final class grade.

IUSB and Classroom Policies

Class is Subject to Change: This syllabus provides an outline of the plan for the semester and the expectations for students in this course. The instructor reserves the right to make any major or minor modifications or additions to the syllabus as needs arise through the semester. Changes to the syllabus will be announced in class, through email, and/or through the Canvas web site. Students are expected to make themselves aware of changes when they occur and proceed accordingly.

Academic Honesty Statement: It is the responsibility of the student to know of the prohibited actions such as cheating, fabrication, plagiarism, academic, and personal misconduct, and thus, to avoid them. All students are held to the standards outlined in the code. Please reference the entire **Code of Student Rights, Responsibilities, and Conduct** at <http://www.dsa.indiana.edu/Code/>. Any violation may result in serious academic penalty, ranging from receiving a warning, to failing the assignment, to failing the course, to expulsion from the University.

Administrative Withdrawal for Non-Performance: This course has been approved to enforce the IU South Bend Attendance and Course Commitment Policy and the full text of this policy is available at <https://www.iusb.edu/registrar/attendance.php>. As a student in this course, you are expected to attend scheduled class meetings and actively participate in all class activities. Students who miss the first week of the semester or who do not attend 50% of the scheduled class meetings before the end of the fourth week of the semester may be subject to administrative withdrawal. Regardless of attendance, students who do not actively participate in this class by not submitting a majority of their assignments by the posted due date are subject to administrative withdrawal.

Paper Submission Policy: Term papers will only be accepted as DOCX or RTF files uploaded to Canvas. Students are expected to familiarize themselves with the system in advance, and complete their work with enough time to avoid upload errors. Papers that do not meet the minimum requirements (WORD COUNTS AND CONTENT EXPECTATIONS - NOT COUNTING HEADERS, TITLE PAGES, BIBLIOGRAPHIES, ETC.) will not be accepted (GRADE 0) or will be failed (GRADE F) at the instructor's discretion. Students are encouraged to visit the instructor with rough drafts during office hours or appointments; however the instructor does not review rough drafts over email, and will not review a rough draft within 24 hours of the due date.

Coursework Communication Policy: All electronic communication must be conducted through IUSB email or Canvas. The instructor will not send email messages to addresses that are not on IU domains. Students are expected to check their IU email and specified areas of Canvas for course information. Email is not a pager, replies may take up to two business days.

Tutoring: The Academic Centers for Excellence (ACE) offers tutoring from the Writers' Room, the Learning Center, the Math Tutoring Center, and the Computer Science and Informatics Tutoring Center. All tutoring services are offered synchronously online through Zoom. For schedules and information about how to access services, go to the ACE website, <https://www.iusb.edu/tutoring>, and click on Tutoring Schedules.

Notes and Presentations: The instructor does not provide copies of notes and presentations. You are encouraged to visit the instructor with questions, and to use class community resources (scribe notes, quizzes, online materials, discussion forum) to support your timely reading of the textbook and other assignments.

Mobile Device and Laptop Policy for Classroom: if you have an emergency need to make a call, please turn the device to silent and leave the classroom for emergency calls. **NO ELECTRONIC COMMUNICATION OR DATA DEVICE IS TO BE OUT DURING TEST DAYS, you will be asked to leave the classroom without an opportunity to complete the test.**

Statement on Course Expectations Regarding Science and Human Evolution: This is a course which in part covers the scientific concept of human evolution and the scientific study of the human past. Students are expected to understand the concepts and terminology of scientific anthropology and to communicate them in their course writings, and also to pass exams which may include those concepts and terms.

Accommodations for Students with Disabilities: Any student who feels that an accommodation may be needed based on the impact of a disability should contact Disabled Student Services at 520-4832 in Room 120 of the Administration Building. Staff will work to coordinate reasonable accommodations for students with documented disabilities.

Accommodations for Religious Holidays or Observances, and Emergencies: Any student who requires accommodation due to a religious holiday or other observance is requested to contact the instructor before the end of the second week of class. Emergencies will be handled on a case-by-case basis within IU policy, please inform the instructor as soon as you are safely able.

Sexual Misconduct and Title IX: As your instructor, one of my responsibilities is to create a positive learning environment for all students. IU policy prohibits sexual misconduct in any form, including sexual harassment, sexual assault, stalking, sexual exploitation, and dating and domestic violence. If you have experienced sexual misconduct, or know someone who has, the University can help. **If you are seeking help and would like to speak to someone confidentially, you can make an appointment with the Student Counseling Center at 574-520-5557.** It is also important that you know that University policy requires me to share certain information brought to my attention about potential sexual misconduct, with the campus Deputy Sexual Misconduct & Title IX Coordinator or the University Sexual Misconduct & Title IX Coordinator. In that event, those individuals will work to ensure that appropriate measures are taken and resources are made available. Protecting student privacy is of utmost concern, and information will only be shared with those that need to know to ensure the University can respond and assist. **I encourage you to visit <https://stopsexualviolence.iu.edu> to learn more.**

Campus Counseling Center: Our trained staff offers **confidential, free counseling** services for a variety of personal and emotional issues, including: Stress/Time Management, Depression/Anxiety, Academic Concerns, Emotional Well-Being, Alcohol/Drug Misuse, Eating Disorders, Sexual Assault/Violence, Grief Coping Skills, Family/Relationship Problem, and more. **Call 574-520-4125 or drop in to Admin 175A.** Mon–Thur 9am to 4:30pm, Tue/Wed evenings extended until 7:00pm. Friday open for pre-scheduled appointments only. <https://students.iusb.edu/student-support-services/counseling-center/>.

Indiana University COVID Policies

To protect the health and safety of everyone on campus during the current COVID-19 Pandemic, each person participating in face-to-face classes is *required* to follow these measures:

1. Wear cloth face coverings that cover your nose, mouth and chin when entering all IU buildings and in all classrooms, hallways, elevators, public spaces and common areas. Facemasks are required for all students and faculty while in class. Facemasks have been provided by Indiana University but you may wear a different cloth facemask. Facemasks have been shown to reduce the spread of the virus. Given that 30-40% of infected individuals are asymptomatic, it is important that you wear a mask even if you don't have symptoms of COVID-19. Let's keep everyone safe.

- [Proper Wearing of Face Masks](#)
- [Face Mask Dos](#)
- [Face Mask Don'ts](#)

2. Maintain at least 6 feet between yourself and other in all indoor and outdoor spaces on campus. Sit in your assigned seat in class and do not move chairs or desks in classrooms or common spaces.

3. Wash your hands with soap and water as often as possible or use personal hand sanitizer containing at least 65% alcohol. Sanitizer will be available on campus. Frequent and good handwashing can protect you from yourself

- [How to Wash Hands](#)
- [When to Wash Hands](#)

4. Take your temperature every day before you come on campus. If you have a temperature of 100.4 degrees Fahrenheit or higher and/or are experiencing one or more COVID-19 symptoms, do not come to campus. If you develop a fever or other symptoms while on campus, go to your residence and contact your health care provider.

- [Covid-19 Medical Guidance](#)

You can find more detailed information about all the things that Indiana University is doing to ensure the health and safety of all members of the campus community at <https://coronavirus.iu.edu/guides/students.html> or through the IU Mobile App (https://play.google.com/store/apps/details?id=iu.android&hl=en_US). To help maintain the safety of our IU Community, we also encourage you to follow the safety protocols when off-campus.
